

In the Heart of NoMad
Modern design + Classic elegance

276 FIFTH AVENUE OFFICE SUITES

Originally opened in 1892 as the Holland House Hotel, this building was designed by architects George Edward Harding & Gooch boasting 350 rooms of palatial elegance emanating both social and technological ambitions of Gilded Age New York. The Holland House lost its luster in changing economic realities and was converted to commercial use in 1920. The building's limestone facade offers a surviving glimpse into the grandeur that once defined its era on Fifth Avenue. Today the building features office suites small and large accommodating teams from 10 to 50 plus with organic growth potential and onsite property management and services.
