

More than a workspace. *A home for businesses.*

A NEW HOME IN MANHATTAN

Inspired by the collaborative spirit of the Israeli *kibbutz*, Hakibbutz brings together premium Manhattan workspace, personalized hospitality, and a vibrant community of founders and growing teams.

In a city known for its scale, speed, and competition, we offer something increasingly rare: a place where business feels personal. Refined design and a central location are simply the backdrop; the experience is built around people, relationships, and belonging.
